## Avant 30

### SINGLE PISTON PUMP FOR SPRAYING MORTARS AND PUMPING GROUTS

Avant 30 is the latest version of the famous Turbosol Piston Pumps. The machine is equipped with single piston pump and compensation lung for uniform and continuous spraying of the material. It is extremely strong and reliable and it is ideal for any sort of civil and industrial building work. Avant 30 is equipped with a strong three-phase 4kW electrical motor in order to be able to work up to 20 floors in height.

TECHNICAL DATA	THREE PHASE
Electric motor	4 kW - 400 V - 50 Hz
Output* <sup>2</sup>	24 ÷ 30 l/min
Max. pressure	35 bar
Delivery height* <sup>2</sup>	40 ÷ 60 m
Delivery distance* <sup>2</sup>	80 ÷ 100 m
Granulometry	0 ÷ 8 mm
Hopper capacity	180 l
Loading height	73 cm
Size (L x W x H)	187 x 100 x 143 cm
Weight	410 Kg

\*<sup>2</sup>These data are not absolute but depend on the quality of the materials to be pumped, their consistency, wear and tear of the pump and the diameter of the hose being used. The performance in distance and height can not be reached simultaneously.
