## Plaster Spraying Machine UNI 30

### SINGLE PISTON PUMP FOR SPRAYING MORTARS AND PUMPING GROUTS

The most powerful piston pump, the UNI 30 is ideal to mix, transport, spray and inject common or special cementitious mixtures with granulometry up to 10 mm. Extremely reliable and strong are the main features of this pump, which is ideal for any sort of civil and industrial building work. UNI 30 Turbosol: the jolly of the building site.

#### TECHNICAL DATA

Prime mover - 3 phase electric motors - 5.5 kW + 1.5 kW

Max. Pressure - 40-50 bar

Granulometry - Pumpable up to 10 mm  
Sprayable up to 7 mm

Max. Delivery Distance - 150 - 200 Meters.

Max. Delivery Height - 40 - 60 Meters.

Output - 30 - 50 Lit / mtrs.

Weight with mixer - 630 - 1020 Kg.

Hopper Capacity - 190 Lit.

Mixer Capacity - 180 Lit.

Spray gun for common and special mortars

Available with or without mixer
